

WEEKLY REPORT
Air Division
Environmental Protection Agency
Region 9
Week Ending March 31, 2017

Significant Items for Last Week

Arizona Particulate Matter Rules: On March 29, the Acting Regional Administrator signed a Federal Register notice finalizing approval on Arizona and Pinal County regulations that control particulate matter from construction sites, agricultural activity, and other fugitive dust sources. We received no comments on the proposed approval. (Contact: Nancy Levin, 2-3848)

California SSM Rule Rescissions: On March 30, the Acting Regional Administrator signed a Federal Register notice proposing approval of California's request to rescind Imperial and Kern Rules 111, both regarding excess emissions during upset conditions. Rescission of these rules is required by EPA's 2015 national action. (Contact: Christine Vineyard, 7-4125)
